

**Justice for Black Lives:
End All University of California Police and Imperial Contracts**

Before You Read On, Say Their Names

[Tony McDade](#). [George Floyd](#). [Breonna Taylor](#). [Ahmaud Arbery](#). [Nina Pop](#). [Tamir Rice](#). [Aiyana Stanley-Jones](#). [Trayvon Martin](#). [Sandra Bland](#). [Oscar Grant](#). [Eric Garner](#). [Janisha Fonville](#). [Philando Castille](#). [Pamela Turner](#). [Walter Scott](#). [Michael Brown](#). [Kiwi Herring](#). [Kawaski Trawick](#). [Stephon Clark](#). [Alteria Woods](#). [Terence Crutcher](#). [Mya Hall](#). [Freddie Gray](#). [Sam Dubose](#). [Jason Washington](#). [Miciah Lee](#). [Aleah Jenkins](#). [Demetrius Dubose](#). [Siaki Ramon del Rio](#). [Mark Adkins](#). [Alfred Olango](#). [Marshawn Washington](#). [Bernedette Grantling](#). [Frederick Jefferson](#). [James Lacy](#). [LaMontez Jones](#).

George Floyd, Tony McDade, and many other unnamed Black folk were murdered by the police this week. These latest deaths have rocked America, as we watched Floyd, face pressed to the ground, repeat “I can’t breathe” and call for his mother. As we learned of a Black trans man murdered by police and then deadnamed and misgendered by his murderers. The on-going legacy of anti-Black racism, systemic police and military brutality, and racial capitalism has been on full display. That it coincides with the [death-by-neglect](#) experienced by Black people during the COVID-19 pandemic is no accident. This moment demonstrates how disgustingly necessary Black death is for the everyday operation of the society we live within, and to the university.

As students and workers at the University of California, we demand an end to all university contracts with police on our campuses, the abolition of their departments, and the redistribution of their resources to provide for community members in need. [Policing is rooted in anti-Black racism, slavery, lynchings, and “protecting and serving” a system of racial dominance and exploitation.](#) It is rooted in Indigenous genocide and settler colonization. No longer will we tolerate our tax dollars and institutions of higher education supporting an institution that systematically and unequivocally devalues and destroys Black life. The UC cannot claim to “serve society as a center of higher learning” as its “[distinctive mission](#)” while at the same time defend its contracts with institutions that disproportionately murder and incarcerate Black and Brown men, women, and non-binary folks in California with impunity. It does so while simultaneously claiming it does not have funds to pay its graduate students, lecturers, food and service workers, librarians, researchers, technical, clerical, or health workers a living wage. The UC cannot claim to “create an educated workforce” when it finances and instructs law enforcement to suppress and [terrorize alumni](#), students and workers for being Black and [Brown](#) or who protest. The UC - [like all of higher education in America](#) - is complicit in racism.

This complicity goes [beyond](#) domestic policing. **We also call on the UC to divest from companies that profit off of Israel’s illegal military occupation of Palestine, investments that uphold a system of anti-Black racism in the US.** We know the Minneapolis police were also trained by [Israeli counter-terrorism](#) officers. The knee-to-neck choke-hold that Chauvin used to murder George Floyd has been used and [perfected](#) to [torture Palestinians](#) by Israeli occupation forces through 72 years of [ethnic cleansing](#) and [dispossession](#). [Police departments](#) view Israeli Defense Force tactics as [models for responding](#) to “public health and safety crises.”

Black people in America have always been treated as “public health and safety crises.” George Floyd was murdered because he was Black; profiled by his neighbors as a criminal, profiled by the police as a threat to be crushed. [Police are trained](#) to see Black, Brown, and [houseless](#) people as erasable threats on and off UC campuses, to be “warzone” soldiers, colonial forces

subduing terrorist enemies or guerillas. We see this in their [militarized response to protests for Black lives](#), to [houseless moms](#), to [deaf, disabled, queer and trans](#) folk, to [ICE collusion](#). Neocolonial state violence extends from the US, to Israel, to the Philippines, to the UCs. The [complicity of the](#) UC system with Israeli settler colonization is directly tied to its complicity with the American lynching, settler and imperial state. We demand an end to this complicity.

Even more than complicity, the UC has taken active steps to protect its colonial [investment](#) in and occupation of the Indigenous sacred ground of Mauna Kea (Kanaka Maoli land, Hawai'i) [through force](#) and intimidation. In California the UC system treats Black and Brown people like colonial subjects. Only months ago, it [contracted with police forces](#) from Oakland and other cities to violently suppress graduate student protests for a cost-of-living adjustment. American police forces are waging a war on Black people, and the UC does not hesitate to channel police expertise and violence against students when it deems them as domestic terrorists or threats.

We demand a return of all Indigenous lands, including UC owned properties to their indigenous caretakers, as Black liberation and Native sovereignty are inextricably linked.

As many land grant institutions, [the UC's longstanding founding in colonial land theft](#), manifest destiny, doctrines of discovery, Indigenous genocide enable it to [profit off land that doesn't belong to it](#), investing profits in police, war, and further displacement. Further, [the UC has a long legacy of colonial theft of Indigenous relatives' remains and materials \(baskets, ceremonial items, etc.\)](#) still held by institutions such as the Hearst Museum and [Anthropology departments](#). On some campuses, the common saying among Native Studies students is "There are more dead Indians on campus than alive." Any meaningful return or reclamation must also include an accelerated return policy under the Native American Graves Protection and Repatriation Act (NAGPRA) and a commitment to major percentages of returns to tribal nations over the next few years, as well as increases in Native American (particularly California Indian) students.

We live and work in the communities of California, brutalized by police and state violence. **We demand the UC act on our demands.** As the director of [Minneapolis Public Schools \(MPS\) Board announced](#): "MPS cannot align itself with MPD and claim to fight institutional racism. We cannot partner with organizations that do not see the humanity in our students. We cannot be neutral in situations of injustice." Neither can the University of California.

We call on all educational institutions across the nation to take a stand against anti-Blackness, colonization, and racial violence. Institutions of higher education, K-12 districts, public and private schools have all seen the racialized violence perpetrated on our students and communities by police. [Together](#) we must oppose all forms of police brutality, militarization and imperialism. We must oppose anti-Black institutional racism. We must build a truly public, fully funded, restorative and anti-racist educational system and society. How many Black folk must be executed by police, our justice system, [educational system](#), and culture before our leaders say enough is enough, they [don't deserve our money and support](#)?

UC, the time is now:

- 1) End all police contracts, abolish police departments on campuses and redistribute those resources to those in need.**
- 2) Divest from companies that profit off Israel's colonial occupation of Palestine.**
- 3) Return Indigenous lands and material relatives to their Indigenous communities.**
